

Appl. No. 10/632,513
Response Dated July 7, 2005
Reply to Office action dated June 10, 2005

REMARKS/ARGUMENTS

Applicants have received and carefully reviewed the Office Action of the Examiner mailed June 10, 2005. Claims 26-29 have been added. Support for the new claims is found in the specification, claims, and drawings as originally filed. No new matter has been added. Claims 1-29 are pending. Reconsideration and examination are respectfully requested.

Specification Objections

The specification is objected to for not including referenced application serial numbers. The specification has been amended to include the serial numbers. Formal drawings are being prepared and will be forwarded to the Examiner upon completion.

Restriction Requirement

Restriction to one of two groups is required. Applicants hereby elect Group I, claims 1-13, drawn to a rotating damper. New claims 26-29 read on Group I. Independent claim 1, as amended, is generic to Groups I and II. Applicants respectfully request the Examiner rejoin claims 14-25 upon indication that the generic claim is allowed.

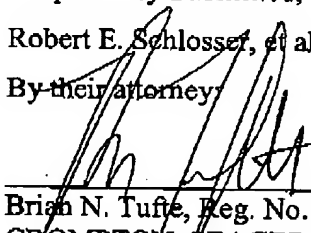

Reconsideration and examination are respectfully requested. If a telephone interview would be of assistance, please contact the undersigned attorney at 612-359-9348.

Respectfully Submitted,

Robert E. Schlosser, et al.
